

Dynamic support extends the tested high-rate regime

Dense high-rate update

1×: 0.426
20×: 0.340

Spine recipe

$\lambda = 0.1$
per-step top 40%
dynamic support

Measured outcome at 20×

Mean accuracy 0.445
+0.0195 vs dense 1×

39.3% adaptive support • 85.0% direction energy • Jaccard 0.600 ± 0.010

Three matched seeds in every factorial cell
